CASED by Karen de Laat - Netherlands

Creating a Paper Storage for the 6" x 6" DSP paper was a fantastic idea that I saw done by Karen de Laat from the Netherlands. When I saw her mention the paper storage I just knew I had to give it a try. I was asked by a viewer to show how I created my 6" x 6" storage.

Be sure to keep the paper information to add to the back of your box so you can look up the colors that coordinate with the 6 x 6 dsp.

What do you need?

1 – 12 x 12" cardboard*

1 – 6 x 6 " DSP (I used [Flowers for Every Season](#) for this example)

2 – solid cardstock pieces 8 ½ x 11" (I used [Misty Moonlight](#) for this example)

*Using cardboard from the backings of foil paper or any other product that Stampin Up has with a cardboard backing works great.

Measurements

BACK PIECE

card stock 7 1/2" x 8 1/4"

with the 7 1/2" side top, score at 5/8" and 6 7/8"

with the 8 1/4" side top, score at 5/8" and 7 1/4"

along the 8 1/4" side put a **small tick mark** at 5 3/4"

FRONT PIECE

card stock 7 1/2" x 6 1/4"

with the 7 1/2" side top, score at 5/8" and 6 7/8"

with the 6 1/4" side top, score at 5/8" and 5 3/4"

CARDBOARD PANELS

Back Panel - 6" x 6 1/2"

Front Panel - 6" x 5"

DSP DECORATIVE PANELS

A piece of 6 x 6 Designer Series Paper, cut at 4 7/8"x 6". The strip goes on the back, the other piece on the front

Directions

BACK PANEL

Fold and burnish all score lines.

Along the bottom, wedge your corners off. Larger score is the top.

Wedge at indentation and cut corner piece (see photo below).

Tape the top larger score and the two smaller tabs and adhere the tabs first, then the top onto the cardboard with tear n tape.

Add Cardboard and adhere down (helpful to add a piece of tear n tape on the back)

NOTE: The bottom 3 flaps do NOT have tape adhered to them.

The front panel will adhere to the back panel.

FRONT PANEL

Larger edge is on the bottom.

Wedge the plans and the top folding.

Adhere tape to the top and close down onto cardboard.

(Add DSP design to the front panel before you adhere it to the back panel)

Add tape to each side and adhere to the back panel.

Close the bottom together.

HINT: I prefer to put the two small tabs in between the two larger flaps so they don't get in the way of the paper inside the box.
