Tips:

- When placing the folded card onto the card base, the opening is at the top.
- Before you adhere the folded card to the card base, score the flap corner to corner one way and adhere it to the back of the folded card.
- Adhere the DSP to the Basic White panels for the inside BEFORE you adhere it to the folded card. This way you can trim anything that needs to be trimmed.
- When creating the front of your card, it is best to use cardstock and not DSP for the closure item that will hold the flap.
- Try to place the flap under as much as you can to hold the flap securely.
