Helpful Hints:

- As we mentioned, we wanted to create the card “flush” on the right side. I changed the measurements to do that. The top panel still had to extend out to 5 1/2" wide. This allows more room to add our characters.
- Be sure to pay attention to the direction and pattern if your dsp is directional.
- Make sure you know the direction of your strip. The larger side goes on the front
- Add the Strips before you adhere the front DSP (to hide the strip on the front of the card.
- Add the DSP to the strip AFTER you adhere the window sheet pieces.
- Adhere the front panel and strips from right to left.
